Exact dimensions are measured to the exterior boundaries of the exterior walls, the centerline of interior dividing walls between units, and the outer boundary of the exterior dividing walls adjacent to common elements, and to feet very low for the dimensions that would be determined by using the description and definition of the "foot" set forth in the Declaration, which generally will include the vertical distance between the parking walls and include the exterior structural components. All dimensions are approximate, and all floor plans and development plans are subject to change. The drawings, renderings, graphics, elevations, plans, specifications, forms, conditions and agreements contained in the brochures are prepared and compiled in whole or in part and will not necessarily reflect the floor plans and specifications for the development. Further, Developer reserves the right to modify, revise or substitute any or all the same or its sole discretion and without prior notice.
